

MAJOR ROADWORK

I-95 IN BALTIMORE CITY

@TheMDTA #i95bmore

**Changing traffic patterns through Fall 2015.
EXPECT MAJOR DELAYS or
Use I-695 or I-895 if traveling thru Baltimore City.**

Southbound I-95

- On or about Sun. **May 3** for approx. 4 weeks: Southbound I-95 traffic lanes will split immediately after the Fort McHenry Tunnel with two lanes to the left and two lanes to the right. Stay right for Exit 55 (Key Hwy) and Exit 53 (I-395) prior to entering the Fort McHenry Tunnel. Exit 52 (MD 295) and thru traffic stay to the left. **E-ZPass is accepted in all toll lanes.**

- On or about Sun. **May 10** for approx. 3 weeks: Southbound I-95 traffic lanes will split with one lane to the left and three lanes to the right between I-395 and Exit 50 (Caton Ave.).

NOTE: All dates and times are approximate and dependent on weather or other work related variables.

Northbound I-95

- On or about Tues. **May 5** for approx. 3 weeks: Northbound I-95 traffic lanes will split with two lanes to the left and two lanes to the right prior to Exit 51 (Washington Blvd.). To use Exit 51, you **MUST** use the two right lanes prior to the split.

- On or about Tues. **April 21** for approx. 4-5 weeks: Northbound I-95 traffic lanes will split with three lanes to the left and one lane to the right from Exit 54 (Hanover St.) to the Fort McHenry Tunnel. To use Exit 54 or Exit 55 (Key Hwy.), traffic **MUST** be in the right lane prior to the split. Thru traffic stay to the left. Consider using Key Hwy. as an alternative to I-395 to access northbound I-95.

Reminder: E-ZPass is accepted in all open toll lanes.

Commuters leaving Baltimore City should use Key Hwy. to enter northbound I-95 to help minimize delays.

Stay Alert So No One Gets Hurt!

- Seek alternate routes during peak travel periods (6-9 a.m.; 3-7 p.m.; Mon. - Fri.).
- Work-zone speed limits on northbound and southbound I-95 are reduced to **50 mph**.
- Work-zone safety speed cameras in use.
